Reviewer's report

Title: Histological analysis of the effects of a static magnetic field on bone healing process in rat femurs

Version: 4 Date: 23 October 2006

Reviewer: Johannes Kleinheinz

Reviewer's report:

General
The revision made by the authors are made according to my requests. The paper is now acceptable for publishing and I thank the authors for their work.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
