Reviewer’s report

Title: Early postoperative bone scintigraphy in the evaluation of microvascular bone grafts in head and neck reconstruction

Version: 1 Date: 9 March 2007
Reviewer: Patrick Warnke

Reviewer’s report:

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
