Reviewer's report

Title: Pneumatized superior turbinate as a cause of headache

Version: 2 Date: 22 December 2006

Reviewer: Tadashi Ishimaru

Reviewer's report:

General

ALL problems in the manuscript have been resolved.

-------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
