Reviewer’s report

Title: Improvement of chronic facial pain and facial dyskinesia with the help of botulinum toxin application

Version: 2 Date: 24 April 2007

Reviewer: GE Borodic

Reviewer’s report:

Dear Dr Stamm

Thank you for your note and I am sorry for the delayed response. Nevertheless, I have reviewed the manuscript and I do believe this case report does have merit and should be published. The discussion and conclusions have been modified and are acceptable.

Thank you for having me participate in the review of this manuscript

Gary Borodic, MD
