Reviewer's report

Title: Schwannoma of the external auditory canal: A case report

Version: 1 Date: 27 October 2006

Reviewer: Jean-Philippe Maire

Reviewer's report:

General: Well written paper. Schwannomas of the external auditory canal are uncommon. This paper adds a new case in the literature.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached): NO

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct):
1) Chapter "case présentation", authors have to give the time of follow-up period (in months or years)
2) Figure legend, add "Diagnosis was reported to be schwannoma by histologic examination".

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable
