Reviewer’s report

Title: Fibrosarcoma of the childhood mandible

Version: 1 Date: 6 September 2008

Reviewer: Thomas Stamm

Reviewer’s report:

Gosau and colleagues present an interesting case of fibrosarcoma of the mandible. Because of the rarity of such malignancies it is important to emphasize such clinical cases as presented. The presented case report therefore adds important information to current scientific literature.

Level of interest: An article of importance in its field
