Reviewer’s report

Title: Non-syndromic occurrence of true generalized microdontia with mandibular mesiodens - A rare case

Version: 3 Date: 18 October 2011

Reviewer: alberto sensi

Reviewer’s report:

the point of dysmorphological examination was adressed, however, at least some auxological parameters should be reported. for example:

Auxological parameters were in the normal range: stature xx (ncentile) weight nKg (centile) occipitofrontal circumference nn cm (centile). He was normocephalic and no craniofacial dysmorphisms, skeletal or dermatologic abnormalities were noted at physical examination.

Level of interest: An article whose findings are important to those with closely related research interests
