Reviewer’s report

Title: Semi-Open Rhinoplasty: A New Maxillofacial Technique.

Version: 1 Date: 17 April 2012

Reviewer: Luis Molfetta

Reviewer’s report:

Discretionary Revisions

The work "Semi-Open Rhinoplasty: A New Maxillofacial Technique ." is within the scope of the journal.
The abstract is sufficiently clear.
The introduction is adequate to describe the purpose of work.
The materials and methods are quite well written to make this technique reproducible.
The discussion is very well structured and highlights the innovative features of this new technique, compared to techniques already used.
The conclusions are justified by what is described in the text.
Authors should reduce the number of authors and cite others in the "acknowledgments".

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
