Title: Do Skeletal Characteristics of Occlusion Correlate with Condylar Volume?

Version: 2 Date: 21 April 2012

Reviewer: armando SILVESTRINI BIAVATI

Reviewer's report:

The authors had modified the manuscript as requested. Now the article is ok for me. The only thing to do is:
1) discussion; 1st paragraph
In this study we only included the data of young adult subjects within a limited age range: DELETE "specify range exactly" (I think is a mistake!!).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
