Reviewer's report

Title: A simplified approach to true molar intrusion

Version: 1 Date: 19 October 2012

Reviewer: Dan Grauer

Reviewer's report:

Dear Editors and Authors,

Article will be ready for publication after copyediting. Minor comments are:

1. The last part of Method: paragraph starting with "Initially" and paragraph starting with "After", should be part of results.

2. For consistency, in the method section where patients are described, the same information should be presented in the same sequence for each patient.

Regards,
Reviewer
