Reviewer's report

Title: Do cleft lip and palate patients opt for secondary corrective surgery of upper lip and nose, frequently?

Version: 2  Date: 24 November 2013

Reviewer: Samantha E Parker

Reviewer's report:

Discretionary Revisions

The authors may want to try and combine tables, such as the eligible patients and response, non-response tables, to reduce the number of tables. They can also include the information from the table in the text and not present the table.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
