Reviewer's report

Title: From Recommendation to Action: Psychosocial Factors Influencing Physician Intention to Use Health Technology Assessment (HTA) Recommendations

Version: 3 Date: 20 March 2006

Reviewer: Jill Francis

Reviewer's report:

General

I have read the revised manuscript and I am happy that the authors have responded appropriately to my concerns. I am indeed much more satisfied that the results are credible, which makes this an impressive set of findings.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
