Title: Using a summary measure for multiple quality indicators in primary care: the Summary Quality Index (SQUID)

Version: 3 Date: 6 February 2007

Reviewer: Martin Lee

Reviewer’s report:

General

I believe the authors have adequately addressed my concerns and have incorporated the suggested changes to the extent that the paper is now acceptable for publication

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
