Reviewer's report

Title: Factors influencing the implementation of a mental health guideline: an exploratory investigation using psychological theory

Version: 2 Date: 10 December 2006

Reviewer: Shaun Treweek

Reviewer's report:

General
The authors have done a good job of addressing the issues raised in my review and I have no further comments.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

None

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

None

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
