Reviewer’s report

Title: Interventions aimed at improving the nursing work environment: a systematic review

Version: 6 Date: 6 January 2010

Reviewer: Melanie Lavoie-Tremblay

Reviewer’s report:

Great Revision of the manuscript

Minor essential revisions

abstract results section: educational toolbox (71%), should it be a % or the number of studies as primary nursing (2)

Methods

...upon by the authors. If which authors are not specify suggest to use we

Discussion p.17

Only shared gouvernance...why shared gouvernance is in italic

appendix 2

insert year of publication for Lavoie-Tremblay

and sample too small 14 nurses, I think that your inclusion criteria for nurses includes nursing aides/assistants p.8 so should it be total of 39

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
