Title: Patient safety in Dutch primary care: Study protocol

Version: 4 Date: 24 March 2010

Reviewer: Robert Fleetcroft

Reviewer's report:

Thank you for asking me to review this revised submission. The authors appear to have answered my questions from my first review in a robust manner, and in my opinion these revisions have been satisfactory. The only additional comment I have is that on page 20 the timescale for the study is from January to December 2009- I presume therefore that the study is already underway.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
