Title: Feasibility of multi-sector policy measures that create activity-friendly environments for children: results of a Delphi study

Version: 1 Date: 1 July 2011

Reviewer: wendy snowdon

Reviewer’s report:

Minor essential revisions.
There are a number of minor grammatical errors that need action. Additionally some rewording of unclear sentences. There are also a few requests for clarification of some specific items.
I would also request some consideration of:
- alternative ways of assessing feasibility
- whether the vagueness of some policy options hindered assessment
Comments are within document. Additionally number 13 and 30 in the appendix require some rewording for clarity.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
