Reviewer's report

**Title:** Clinical guidelines contribute to the health inequities experienced by individuals with intellectual disabilities

**Version:** 3  **Date:** 9 March 2012

**Reviewer:** Sara Twaddle

**Reviewer's report:**

I am happy that the authors have addressed the points made in my original review and I feel that the paper is less confrontational and thereby more helpful to guideline developers than previously,

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I am the Director of SIGN who produced a number of the guidelines reviewed in this paper.
