Reviewer's report

Title: The organizational social context of mental health services and clinician attitudes toward evidence-based practice: A United States national study

Version: 2 Date: 12 May 2012

Reviewer: C Hendricks Hendricks Brown

Reviewer's report:

Review of Resubmission

The authors have been fully responsive to the reviewer comments. The fact that there are still organizational level climate and culture relationships with EBPAS after adjusting for individual level perspectives is a good demonstration of the hypotheses in this paper.

This is an important paper with a very large sample size and highly informative for the field.

I am fully satisfied with this revision.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I am a paid consultant with Landsverk's center and on the advisory board of Hoagwood's center. I also am collaborating with Aarons on submission of a grant proposal. Landsverk is a paid consultant on a center grant that I direct, and Aarons is a collaborator on this center.
