Reviewer's report

Title: Influence network linkages across treatment conditions in a randomized controlled trial of two implementation strategies for scaling up evidence-based practices in public youth-serving systems

Version: 2 Date: 28 August 2013

Reviewer: Jan-Willem Weenink

Reviewer's report:

The authors have responded to my previous comments. I accept the revised manuscript, and only have a few minor issues (typos).

Minor issues not for publication
- A few times throughout the paper, betweenness is spelled with a hyphen (between-ness).
- Last sentence of the data-collection paragraph misses a full-stop.
- Penultimate paragraph of the results section: …CDT condition and 'a' in the standard…
- Last paragraph of results section: One participant ‘had’ a direct tie…
- Penultimate paragraph of the discussion section: Use ‘of’ qualitative information in this manner…

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
