Reviewer's report

**Title:** Evaluation of a web-based intervention to reduce antibiotic prescribing in six European countries; quantitative process analysis of the GRACE/INTRO randomised controlled trial.

**Version:** 1  **Date:** 19 August 2013

**Reviewer:** Esmita Charani

**Reviewer's report:**

An interesting study.

The study would have been strengthened from a pre-intervention survey to be able to measure the effect of the intervention.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

None to declare
