Reviewer’s report

Title: Designing a theory-informed, contextually appropriate intervention strategy to improve delivery of paediatric services in Kenyan hospitals.

Version: 2 Date: 6 February 2013

Reviewer: Richard Byng

Reviewer’s report:

The paper now reads well setting up the complex problem, outlining methods to determine solutions, and drawing conclusions.

Some of the links between conclusions and evidence are not very clear, and the author could focus further on that.

In summary, a nicely reworked paper.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
