Reviewer’s report

Title: The Sforzesco brace can replace cast in the correction of adolescent idiopathic scoliosis. A controlled prospective cohort study

Version: 2 Date: 24 October 2008

Reviewer: Theodoros B. Grivas

Reviewer’s report:

The comments were addressed satisfactory, the title has been changed and the orientation of the discussion clearly redefined, therefore the paper at this time is better.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
