Reviewer's report

Title: Surgical complications in neuromuscular scoliosis operated with posterior-only approach using pedicle screw fixation.

Version: 5 Date: 23 March 2009

Reviewer: George H. H Thompson

Reviewer's report:

our manuscript is again improved but I still have major concerns.

Minor Essential Revisions.

(1). You still have major problems with the English. This needs to be corrected to improve the understanding of your study.

(2). I also question if all new data and analyses are consistent throughout your manuscript. You need to carefully review the entire manuscript for accuracy and consistency.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
