Reviewer’s report

Title: Surgical complications in neuromuscular scoliosis operated with posterior-only approach using pedicle screw fixation.

Version: 6 Date: 7 April 2009

Reviewer: George H. H Thompson

Reviewer’s report:

Your manuscript has been significantly improved. I assume you had access to my edited copy of your manuscript. I have only a few minor revisions to complete the manuscript.

Minor Essential Revisions

(1). Page 8. Lumbar lordosis is not expressed with a minus sign. The fact that use the word lordosis distinguishes it from thoracic kyphosis.

Discretionary Revisions

(2). Please make sure all your results in the text are consistent with your tables. Also check your spelling.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
