Reviewer's report

**Title:** Clinical and physiological effects of transcranial electrical stimulation position on motor evoked potentials in scoliosis surgery

**Version:** 1  **Date:** 22 December 2009

**Reviewer:** Miguel Angel Collado-Corona

**Reviewer's report:**

Discretionary revisions.

1. It is desirable to attach the originals of the obtained records independently of the diagrammatic MEPs representation.

2. The 8th reference is no longer in press. The full reference in Eur Spine J should be included.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interest.
