Reviewer’s report

Title: Conservative treatment of idiopathic scoliosis according to FITS concept: presentation of the method and preliminary, short term radiological and clinical results based on SOSORT and SRS criteria.

Version: 5 Date: 7 November 2011

Reviewer: Martha Hawes

Reviewer’s report:

This is an important new study that will open new avenues for patients and parents. Most critical is that the presentation is clearly presented so that others can reproduce the methods and approaches and thereby follow the leadership provided by this work.

Level of interest: An exceptional article

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
