Reviewer's report

Title: Standardization of examination posture used for spinal curvature assessment by means of the DTP-3

Version: 2 Date: 10 January 2012

Reviewer: Patrick Knott

Reviewer's report:

Major Compulsory Revisions: None
Minor Essential Revisions: There are still some grammatical corrections that need to be made to put this in proper english.
Discretionary Revisions: None

The authors have responded to the suggestions of the reviewers and significantly improved the paper, making the explanations much more clear.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests.
