Reviewer's report

Title: Cotrel-Dubousset instrumentation for the correction of adolescent idiopathic scoliosis. Long-term results with an unexpected high revision rate.

Version: 2 Date: 20 April 2012

Reviewer: Toru Maruyama

Reviewer's report:

The revised manuscript is muc better.

Discretionary revisions
What I would like to know is whether implant removal effectively relieved of LOSP or not.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
