Reviewer's report

Title: Body mass index in relation to truncal asymmetry of healthy adolescents, a pathogenetic concept. Summary of an electronic focus group debate of the IBSE

Version: 2 Date: 21 April 2013

Reviewer: Tomasz Kotwicki

Reviewer's report:

The revised manuscript provided does NOT contain any of the revision the authors claim to have done. The title is not altered. The unlogical term of “truncal bilateral asymmetry” persists etc.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
