Reviewer's report

**Title:** The new Lyon brace: ARTbrace. New concepts based on scoliosis detorsion. Prospective study of the first 225 early radiological results of in-brace correction

**Version:** 3  **Date:** 29 September 2014

**Reviewer:** M S Wong

**Reviewer's report:**

Minor Essential Revisions
It is suggested to confine this manuscript to be an introduction of ARTorthosis rather than confirming its effectiveness - too short evaluation period. The statement is too affirmative on the effectiveness of this orthosis at the conclusion section.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
