Reviewer's report

**Title:** Evaluation of coronal shift as an indicator of neuroaxial abnormalities in adolescent idiopathic scoliosis: A prospective study.

**Version:** 2  **Date:** 26 June 2014

**Reviewer:** Joshua Pahys

**Reviewer's report:**

The revisions made to the updated manuscript have strengthened the study and improved its clarity. I do not have any suggestions for further changes or improvements.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
