Reviewer's report

Title: The impact of altitude on early outcome following the Fontan operation

Version: 1 Date: 5 July 2006

Reviewer: James Monro

Reviewer's report:

General

-------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------

 Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

IT WOULD BE INTERESTING IF YOU COULD FIND OUT THE RESULTS FROM SOME UNITS AT MUCH GREATER ALTITUDE. EG DENVER.

What next?: Accept after discretionary revisions

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
