Reviewer's report

Title: Management approach for recurrent spontaneous pneumothorax in consecutive pregnancies based on clinical and radiographic findings

Version: 1 Date: 12 September 2006

Reviewer: Frank A Chervenak

Reviewer's report:

General
This case report is original, well-written, and of interest. The case report, table and figure are appropriate. The discussion follow the case and the referenced literature

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
none

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
none

Discretionary Revisions (which the author can choose to ignore)
acceptable as is

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
