Reviewer's report

Title: Unique Type Of Isolated Cardiac Valvular Amyloidosis

Version: 1 Date: 16 September 2006

Reviewer: azhar khan

Reviewer's report:

General

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)1- None

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)2- None

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
3- Introduction can be expanded a bit more and authors can describe the unique characteristics in their case in comparison to previously reported cases.

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable
