Reviewer's report

Title: A Simple Reproducible Method Of Preventing Lobar Torsion

Version: 1 Date: 8 April 2008

Reviewer: Eric Lim

Reviewer's report:

Thank you for the opportunity to review this manuscript which, a novel method to prevent lobar torsion. I thought that the manuscript was well written and interesting.

Major compulsory revisions: None

Minor essential revisions: None

Discretionary Revisions:

My only comment is that of the cost of Bioglue compared to that of two silk sutures that may also be used to secure the middle lobe.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
