Reviewer's report

**Title:** Multislice Computed Tomography is Useful for Evaluating Pulmonary Venous Malformation

**Version:** 1  **Date:** 19 January 2010

**Reviewer:** Tayfun uçar

**Reviewer's report:**

Although the data is not novel, the paper is well written and sufficiently clear. Case reports are clearly right to address the aims. It has three figures in support of the conclusions.

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Declaration of competing interests:**

I declare that I have no competing interests.
