Reviewer’s report

**Title:** Multiple right pulmonary nodules. Advanced cancer or resectable early stage tumor?

**Version:** 1 **Date:** 31 May 2011

**Reviewer:** W Michael Alberts

**Reviewer’s report:**

Thank you for the opportunity to review this interesting Case Report. Cioffi and colleagues report a patient with 3 nodule in the right lung. The nodules responded differently to chemotherapy thus prompting surgical investigation. The Results changed the treatment and the prognosis.

**Minor Essential Revisions**

1) Abstract, Line 4 = What do you mean by "a control CT"?
2) Multiple locations = "primitive lung cancer" should be "primary lung cancer"

**Discretionary Revisions**

Title = Multiple right-sided pulmonary nodules. Metastatic cancer or resectable early stage tumor?

Page 6, Line 8 = "Invasivity" should be "invasiveness"

**Level of interest:** An article of limited interest

**Quality of written English:** Needs some language corrections before being published

**Declaration of competing interests:**
