Reviewer's report

Title: LV Reverse Remodeling Imparted by Aortic Valve Replacement for Severe Aortic Stenosis; Is it Durable? A Cardiovascular MRI Study sponsored by the American Heart Association

Version: 2 Date: 12 February 2011

Reviewer: Agostino Meduri

Reviewer's report:

Discretionary revisions
If delayed enhancement was performed it would be interesting to evidence a possible correlation with mass and EF changes

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
