Reviewer’s report

Title: Evaluation of Endoscopic Vein Extraction on Structural and Functional Viability of Saphenous Vein Endothelium

Version: 1 Date: 24 April 2011

Reviewer: Vladimir Birjiniuk

Reviewer’s report:

The Manuscript is well done,
However there is a missing control point,
I would like to see that vein harvested open
in the thigh area has the same Ca/nitric oxide activity as below.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
