Reviewer's report

Title: Bronchogenic cyst associated with pericardial defect: Case report and review of the literature

Version: 1 Date: 7 April 2011

Reviewer: pierluigi granone

Reviewer's report:

Major Compulsory Revisions: none

Minor Essential Revisions:
1) The Author should improve English in the case presentation section.
2) Five days of postoperative hospital stay after thoracoscopy without lung resection are many; the author should explain why the patient has been observed for so long.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Declaration of competing interests:
