Reviewer's report

Title: The successful introduction of an adapted form of the mini extra corporeal circulation used for cardiac surgery in an obese patient.

Version: 1 Date: 8 January 2012

Reviewer: Giovanni Melina

Reviewer's report:

This is a well written case of an obese patient with severe aortic stenosis undergoing AVR using MECC.

In the Abstract please take off the sentence: "To our knowledge, this is the largest patient treated with this small oxygenating device"

Level of interest: An article of importance in its field

Quality of written English: Acceptable
