Reviewer's report

Title: The management of bronchus intermedius complications after lung transplantation: A retrospective study

Version: 1 Date: 11 October 2011

Reviewer: Alexandru Corlateanu

Reviewer's report:

I am having only Discretionary Revisions, which can be ignored by the authors:
1. to add table: Assessment of severity of bronchial ischemia at the level of anastomosis proposed by the authors
2. to add in text of the article values of FEV1 before and after the stent placement (page VII)
3. in conclusion of the article to write more clearly about impact of modified (by the authors) Montgomery T-tube in the management of BI complications.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
