Title: Ventricular Assist Device Outflow Graft in Congenitally Corrected Transposition of Great Arteries - A surgical challenge

Version: 1 Date: 9 August 2012

Reviewer: Madhan Kumar MKK Kuppuswamy

Reviewer's report:

Minor Essential Revisions:
In the case reported, Right Ventricle is the systemic ventricle. It is obvious that the Ventricular Assist Device would have been placed only in the systemic ventricle (Right Ventricle). But in the second paragraph, third line it was mentioned as left ventricle. Also instead of mentioning Left Ventricular Assist Device (LVAD) implantation, I feel it is better to mention as Systemic Ventricular Assist Device (SVAD) as the article can be read by readers in different stages of their training.

Level of interest: An article of importance in its field

Quality of written English: Acceptable
