Reviewer’s report

Title: Giant lateral left ventricular wall aneurysm sparing the submitral apparatus

Version: 2 Date: 29 September 2013

Reviewer: Nikolaos Bonaros

Reviewer’s report:

The authors provided an adequate Response. I do not agree with reviewer 2 that the contribution of this manuscript to the literature is low. A lot is known about LV-aneurysms of the anterior and the posterior wall, which is not the case regarding the lateral wall. I would suggest publication.

Level of interest: An article of importance in its field
