Reviewer's report

Title: Cardiac papillary fibroelastoma: a retrospect of four cases

Version: 1 Date: 3 December 2012

Reviewer: ke qiang ji

Reviewer's report:

Major Compulsory Revisions
None.

Minor Essential Revisions
1. The author made some spelling mistakes that should be corrected.
2. The author wrote “In most cases, tumor mobility is an independent predictor of occurrence of death or nonfatal embolization”. Is it a conclusion based on solid evidence or a experience summarised by author himself?

Discretionary Revisions
1. Please highlight what is the most interesting and constructive founding in this article.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Declaration of competing interests:
