Reviewer's report

**Title:** Superior vena cava syndrome caused by a swollen absorbable haemostat after repair of ischaemic mitral regurgitation

**Version:** 2  **Date:** 25 November 2013

**Reviewer:** Jorge Almeida

**Reviewer's report:**

The manuscript was clearly improved with authors' corrections. However, I keep on suggesting language revision before publication.

**Level of interest:** An article of importance in its field

**Quality of written English:** Needs some language corrections before being published

**Declaration of competing interests:**
