Reviewer's report

Title: Transthoracic Minimal Invasive Closure of Ruptured Sinus of Valsalva Aneurysm

Version: 1 Date: 17 September 2013

Reviewer: Francisco A Costa

Reviewer's report:

1. Improve text
2. Better justification for using this method instead of the classical transfemoral approach

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Declaration of competing interests:
