Reviewer's report

Title: Surgical repair of distal arch pseudoaneurysm from ruptured penetrating aortic ulcer with the frozen elephant trunk technique

Version: 1 Date: 17 February 2014

Reviewer: Murali Vettath

Reviewer's report:

Though debranching of the arch vessels and stenting the aneurysm has been practised widely, with its known complications... this hybrid technique also need to be remembered when such situations arise..

Level of interest: An article of importance in its field
