Reviewer's report

**Title:** Fibrinogen concentrate administration attributes to significant reductions of blood loss and transfusion requirements in thoracic aneurysm repair

**Version:** 2  **Date:** 10 March 2014

**Reviewer:** Shuichi Kino

**Reviewer's report:**

Major:
Nothing in particular.

Minor:
Nothing in particular

Discretionary revision:
Total blood loss in TAA surgery seem to include surgeon's skill. If you have data about blood volume loss after CPB in two groups, you should describe these results in the manuscript.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
I have no COI.
